Hi [Fans/Viewers First Name/Dj's],

Marz and the New Order Records team would like to personally introduce you to the amazing and inclusive fanbase of Marz Da Hippy. Here are a few things about Marz and what to expect soon.

With a mixture of singing and rapping, Marz can blend the trap/r&b styled beats with his own personal background and influence. His ability to tell a story within his verses, while maintaining hooks and flows catchy enough to be played in a club setting is what you can expect from his new single "Lost in the Dark". As a testament to who he is regarding his emotions and viewpoints based on life experiences, "Lost in the Dark" gives a transparent outlook on Marz Day Hippy and what is to come.

Marz and New Order Records would love to get to know you as well! Follow us on social media and tell us something about yourself.
